Target audience:

All of those with an interest in undergraduate medical education in palliative care and in new ways of providing education.

What participants can expect to gain from the session:

- An overview of the contemporary issues in undergraduate medical education
- Concrete curriculum and materials for trainers
- Online modules for undergraduate medical students – a model.
- Making education on palliative care accessible to all

Registration:

Registration for this event is €10 and participants are asked to register in advance.

A limited number of small grants are available to delegates from Low-Middle Income Countries (as defined by the world bank). Grant application forms and details can be accessed [here](#)

Dissemination:

Each delegate attending the meeting will be offered a USB key containing copies of all presentations and tools developed during the project.

Evaluation:

Participants will be asked to sign an attendance list and will be contacted for feedback on the event.
